

THE DREAM OF SAILING AROUND THE WORLD

IN CROSSING AND CRUISING STAGES

STAGE 8 BALI – THAILAND

BALI-PHUKET

1 DEC- 15 JAN (2024)

CROSSING (2100 NM) +
PHUKET ISLAND AND
THAILAND CRUISE

STAGE 8

NAVIGATION NOTE:

Favorable winds (SE trades) until latitude 5°S, but wait to turn north from longitude 95°E, to avoid contrary winds and currents near Sumatra. Recommended to stop at Christmas Island. According to the evolution of the transitional period between the SW and NE monsoons (October-November), in the ITCZ with a greater probability of tropical storms, it may be advisable to advance the crossing to early November. Alternative route through the Strait of Malacca, but with a lot of traffic and a greater risk of strong local storms.
