

THE DREAM OF SAILING AROUND THE WORLD

IN CROSSING AND CRUISING STAGES

STAGE 12 RED SEA - SUEZ

NAVIGATION NOTE:
Study the political situation of the moment to know the areas to avoid; Saudi Arabia or Yemen do not welcome sailboats. Route on a direct course complicated by a high probability of contrary winds. Better option to alternate offshore stages with coastal navigation in daily jumps. The Gulf of Aqaba is worth it, Egypt, Jordan and Israel have ports of entry, such as Sharm el Sheikh, Aqaba or Eliat. Reefs and other dangers are well marked on the charts of the British Admiralty. It is advisable to anchor early to avoid reflections from the water with the sun low, which prevents you from seeing the dangers well, which in normal situations are easily visible.
